REPUBLIC OF THE PHILIPPINES
PROVINCE OF CAVITE
CITY OF GENERAL TRIAS

Message

As we enter a new season of hope while the pandemic eases, our city government has started to lay out our plans for the next three years. After all the adversities that we, as a city, have surpassed, we are coming out of this pandemic as strong Gentriseños, united as one, healed as one, and recovering as one.

In order to continuously provide first-class service to our beloved Gentriseños, our city government's Executive-Legislative Agenda (ELA) focused on Institutional, Social, Economic, Infrastructure, and Environment sectors. These are the key determining factors in ensuring that Gentriseños receive quality service from the city government. These goals were attained through the collaboration of the Executive and the Legislative departments of our city.

With the combined efforts and assistance of our partners, we have positioned the City of General Trias at the pinnacle of progress. Getting where we are now is tough and maintaining and surpassing our milestones require new platforms and plans.

The road ahead will be long. Our climb may be steep, but I have never been more hopeful than I am today that we will get there. With our renewed commitment to promote good governance, prime socio-economic services, and the rule of law, it is certain that we will realize our aspirations.

I urge everyone to endeavor a new spirit of “bayanihan,” of service, of courtesy, of discipline and of responsibility where we resolve to commit ourselves to working harder and looking after one another. We have come so far. We have seen so much. But there is so much more to do. Hence, Let us Join Forces for a More Progressive City of General Trias.

HON. LUIS “JON-JON” A. FERRER IV
Mayor
City of General Trias

Message

Throughout the years, the City Government of General Trias has been distinguished and awarded for the hard work and efforts which are exhibited beyond excellent. This is through the perseverance and genuine toils of the city officials, functionaries and stakeholders.

Within my first term as elected City Vice Mayor, given the mandate in the political exercise with zeal to serve, I take humility in conveying my sincere congratulations. Certainly, I am with you as we take devotion in everything that has been started in order to continue the top quality services, programs and projects for the general populace.

The same acknowledgement goes to our Congressman Hon. Antonio A. Ferrer, City Mayor, Hon. Luis A. Ferrer IV, Members of the Sangguniang Panlungsod, Department / Unit Heads, Colleagues and selected LGU personnel for demonstrating dynamic determination and vigorous involvement in crafting of the City Executive-Legislative Agenda (ELA) -Capacity Development Agenda (CapDev Agenda) which stands as our guide in tracking the three-year journey for good governance. Together let us make use of the ELA- CapDev Agenda as an advanced instrument that leads the executive and legislative branches towards a unified direction in ensuring the sustainable development of our beloved city.

Nothing indeed can be more rewarding to the Gentriseños if such advancement concerns which are planned and decided through our mutual agreement will be executed to further the quality of their lives. Our affection for them is a way to achieve the desired triumph.

As we march forward, we must be armed with boundless passion. One popular writer said: "Every great endeavour is fueled by great enthusiasm." This is the key that has landed us to such a remarkable victory. Our unique excitement and sincere attitude would drive to fruitful years.

Let us rise by our vow with ELA- CapDev Agenda!

JONAS PORTO LABUGUEN

EXECUTIVE SUMMARY

After the conduct of the conference for the newly-elected officials, the City Government of General Trias, headed by Mayor Luis A. Ferrer IV and Vice Mayor Jonas Glyn P. Labuguen immediately decided to craft the Executive-Legislative Agenda (ELA) for the years 2022 – 2025. The ELA is a planning document covering one term or the three-year period of its local elective officials. The document is mutually developed and agreed upon by both the Executive and Legislative departments of the Local Government Unit (LGU).

The ELA formulation was participated by the local officials, department heads, civil society organizations (CSOs), and select personnel from different offices. The planning workshop last for three days – first two days held at Jollibee Poblacion on August 16 and 17, while the third day was held at The Bayleaf Hotel Cavite on August 19. The participants were divided into five (5) groups according to sectors – Institutional, Social, Economic, Infrastructure, and Environment. Sharing, consolidating, and processing of ideas characterized the said activity.

Planning for the ELA directly takes off from the city's existing development and directions, anchored on the strategic direction and program thrusts introduced by Mayor Ferrer during his Inaugural Speech. The vision of the city was revisited to help in determining the present Vision-Reality Gap. These gaps were significant in identifying the sectoral priority development programs and projects for the next three years of the current administration.

After finalizing the sectoral goals, objectives, and strategies, participants were given time to formulate these ideas into actions to ensure the realization of the plan. The prioritized Programs, Projects, and Activities (PPAs) are complemented with appropriate policy interventions and priority legislative measures to be enacted by the Sangguniang Panlungsod (SP). These legislative measures were further divided into new / proposed, amended, revised, and updated legislation. These legislative requirements were determined to support the development priorities, directions, and thrusts of the City for the next three years.

Identified and prioritized programs and projects for implementation within the term of the local elected officials were inputted to the Local Development Investment Program (LDIP), wherein an annual slice of it would constitute the Annual Investment Plan (AIP), referring to the indicative yearly allocation of the City's PPAs to be integrated into its annual budget.

The participants, led by the Executive and Legislative, pledged their commitments in what they have formulated and agreed upon in the workshop. The outputs will be translated to the final plan, to speed up and increase the chances for the implementation of priority PPAs, and eventually improve the lives of Gentriseños.

The ELA is considered as a good development tool in local governance since it leads the Executive and Legislative branches towards a unified direction through programs,

projects, and activities anchored on the recurring issues, gaps, and needs of the City and its residents. This planning workshop also promoted checks and balances between the Executive, Legislative, Sectoral representatives, and the masses through the CSOs, to identify problems through a multi-perspective lens and gauge the feasibility and prioritization of suggested actions to be taken by the LGU. The document will guide the present administration as they traverse their three-year journey towards good local governance, feasibility of plans, and promotion of the general welfare of Gentriseños.

1.0. LGU VISION AND MISSION STATEMENT

City of General Trias:

The center of sustainable economic development in the region where empowered and healthy citizenry live in an ecologically-balanced environment with modern infrastructure and facilities, led by competent and service-driven public servants.

The proposed vision of the City of General Trias describes its commitment to provide an improved quality of life of its constituency by becoming the center of sustainable economic development in the region while ensuring the conservation of its environment. Led by competent and service-driven public servants, the City shall endeavor to provide modern roads, efficient sewerage and drainage systems along with fast and reliable telecommunication services. It shall provide sustainable solutions in preserving the state of natural environment in the City and in making disaster-resilient actions to adapt to the changing climate conditions.

We are committed to sustain growth and development through promotion of competitive industries and modern agriculture; maintain peace and order and provide accessible basic services and opportunities, and empower its constituents under a transparent and accountable governance.

2.0. CITY OF GENERAL TRIAS BRIEF PROFILE

20.  29,121 (6.76%) Persons are **Senior Citizen**.
21.  24,871 (85.4%) Senior Citizens have **Senior Citizens IDs**.

- **Brief Historical Background**

The Municipality of San Francisco de Malabon was founded on December 13, 1748. Named after its Patron Saint (Francis of Assisi), the town's name was later changed to General Trias to honor General Mariano Closas Trias, the Vice President of the First Revolutionary Government, first provincial governor of Cavite under the American regime, and appointed supreme civilian and military commander of Southern Luzon.

Some of the most notable historical event in the town includes the “First Cry of Cavite” on August 31, 1896 in Pasong Kalabaw (now Brgy. Sta. Clara), the Tejeros Convention on March 22, 1897 which established the Revolutionary Government, and the rehearsal of the Philippine National Anthem “Lupang Hinirang” by the San Francisco de Malabon Band in the center of the town's church built by Franciscan Missionaries.

General Trias was able to obtain its cityhood last December 12, 2015 through the Republic Act 10675, in which a plebiscite was held and majority of the residents voted for the cityhood of General Trias. Republic Act 11069 on the other hand made the City of General Trias as the 6th Lone District in the province of Cavite. Presently, the City of General Trias is a booming town, where nostalgia of history, richness of culture, and wave of modernization meet, making it a perfect destination for people looking for the right blend of both old and new worlds.

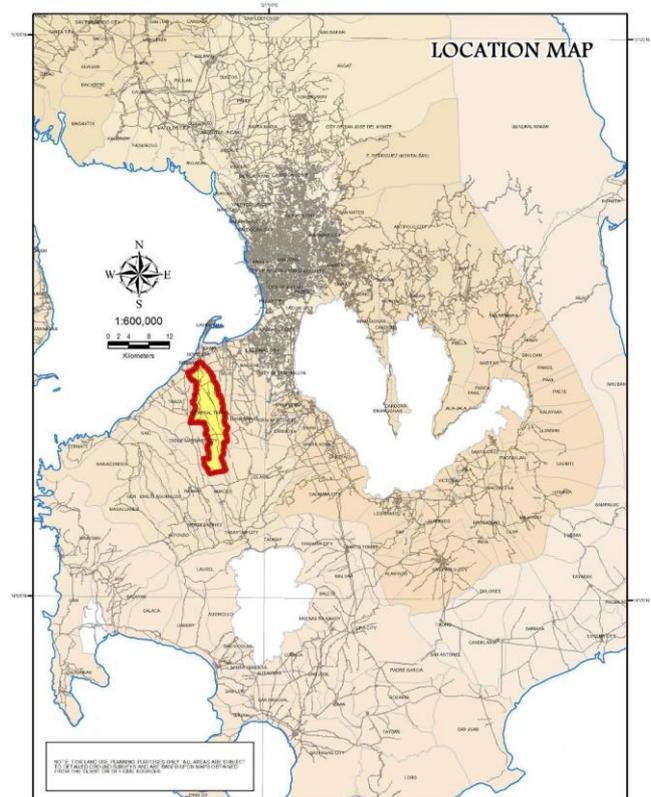

Monument of General Mariano Trias along Governor Ferrer Drive, General Trias, Cavite, 2020

Source: <http://nhcphistoricsites.blogspot.com/2020/11/mariano-trias.html>

- **Location and Area**

The City of General Trias is an inland city with a total land area of 8,890 hectares. It lies in the northeastern part of the province of Cavite and its Poblacion is located at 14°23'12" latitude and 120°52'46" longitude. It is located 35 kilometers southwest of Manila and it is 18.27 kilometers distant from the Provincial Capitol located in the City of Trece Martires. The City is bounded by six (6) municipalities and three (3) cities. It is bounded by Municipalities of Noveleta and Rosario on the North, by Municipality of Amadeo on the South, by Municipality of Silang on the southeast, by Cities of Dasmariñas and Imus on the East, and the City of Trece Martires and Municipality of Tanza on the West, and by Municipality of Kawit in the Northeast. The land shape of General Trias follows the path of its territorial boundaries in the eastern and western sections which is the river.

Location Map of the City of General Trias
Source: Ecological Profile 2018

The City is politically subdivided into 33 barangays. Based on the 2018 Ecological Profile, the largest barangay in the City is San Francisco with a total land area of 934.09 has. It is followed by barangays Santiago (846.54 has.), Javalera (698.71 has.), Alingaro (678.83 has.), and Pasong Kawayan II (593.95 has.). On the other hand, the smallest barangays are located within the Poblacion area including barangays Gov. Ferrer (1.97 has.), Arnaldo (3.73 has.), and 1896th (4.29 has.).

- **Topography**

Generally, the topography of the City is characterized by flat to gently rolling terrain with deeply incised river channels. The lowest elevation is located in barangays Tejero and Bacao II with an elevation of eight (8) meters above mean sea level (amsl). The Poblacion area has an elevation of about 12 meters amsl. Conversely, the highest elevation is mostly found in the southern portion of the City, specifically in Barangay Panungyanan at 250 meters amsl. It is followed by barangays Javalera at 200 meters amsl and Manggahan (at the junction of Governor's Drive) at approximately 114 meters amsl.

The slope on the northern part of the City ranges from 'level to very gently sloping' and 'gently sloping to undulating. On the other hand, the slope on the southern, south eastern, and small part of the western portion of the City interspersed with rolling terrain which forms footslopes ultimately leading to the Tagaytay ridge. Thus, most of the

lands on this portion of the City are characterized by rolling, steep, and very steep terrains.

- **Climate and Temperature**

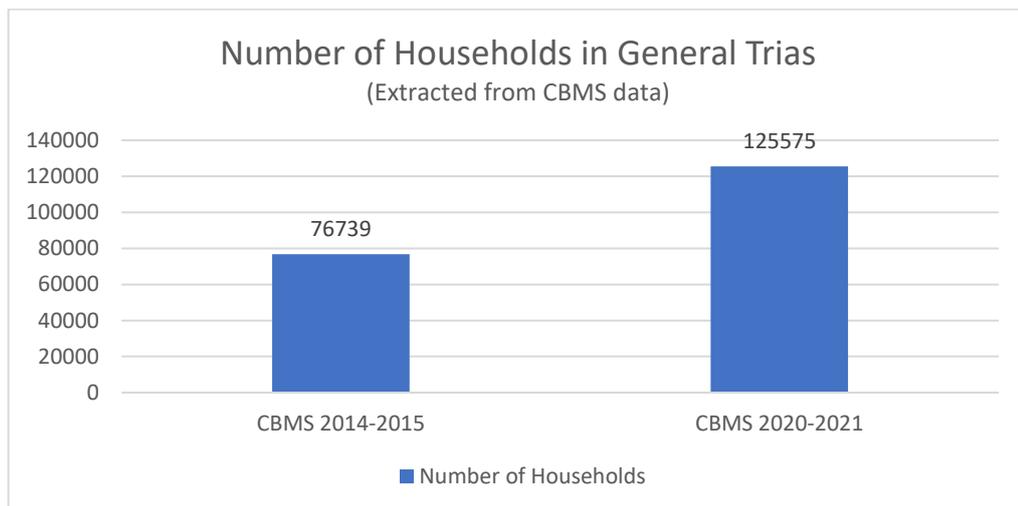

The entire Cavite province, where the City of General Trias is situated, is within the area classified as Type I under the Modified Corona’s Classification of Climate, having two (2) pronounced seasons, dry from November to April, and wet from May to October. The maximum rain period is from June to September. An average of five (5) tropical cyclones visits the area every three (3) years based on data regarding the frequency of tropical cyclones passing the Philippine Area of Responsibility (PAR) prepared by the Philippine Atmospheric, Geophysical and Astronomical Services Administration (PAGASA).

The monthly average temperature in the City of General Trias varies per season. Based on the 2020 data from PAGASA, the highest temperature in the city was recorded during the month of April, at 35°C. On the other hand, the lowest temperature recorded in 2018 was at 24.1°C, during the month of February.

- **Demography**

The City of General Trias registered a total population of 430,708 as per 2020-2021 Community-Based Monitoring System (CBMS). From 250,028 in CBMS 2014-2015, it increased by around 72.26 percent over a six-year period. This implied an increase of 180,680 persons over the 2014-2015 CBMS census.

For the number of households, the 2020-2021 CBMS Census tallied 125,575 households, a 63.6% change from the previous 76,739 households recorded by the 2014-2015 CBMS census.

Source: CBMS 2020 – 2021 (Unofficial)

- **Population Distribution (by Barangay)**

Among the 33 barangays in the City of General Trias, Brgy. San Francisco has the highest population – 76,042 of the 430,708 total population in the City. While Brgy. Governor Ferrer recorded the lowest population, with 217 of the 430,708 total

population. As compared to the previous CBMS survey conducted last 2014-2015, the previously mentioned barangays were also the highest (Brgy. San Francisco – 55,413) and lowest (Brgy. Governor Ferrer – 203). However, Brgy. Navarro has the highest percentage change, with a 439% increase in its population (from 8,598 to 46,314).

Source: CBMS 2020 – 2021 (Unofficial)

In terms of sex, there are more females (218,999) than males (211,709) in the City. The trend of higher female population was still consistent with the 2014-2015 census, even if population drastically increased from the previous census.

Source: CBMS 2020 – 2021 (Unofficial)

The city ratio was 100 males per 103 females. The sex ratio, however was the highest in the younger age groups (0-5 years old) registering as much as 109 males per 100 females. Females within the age bracket 25 and above outnumbered their male counterparts. A great population of females was also observed to be within their highly productive years. This implies a potential for a more rising birth rate at least in the near future.

Source: CBMS 2020 – 2021 (Unofficial)

- **Social Services**
 - **Education**

According to the Department of Education – Division of City of General Trias, the City was recorded as top 1 in the whole Philippines when it comes to the rate of increase in enrollees. As of September 2022, the number of enrollees generated by their Learners Information System (LIS) for SY 2022 – 2023 reached 82,430 for public schools covered by DepEd. On the other hand, number of enrollees from private schools, as generated by the ILS, reached 17,301 – totaling to 99,731 for both private and public school enrollees.

Source: Business Permit and Licensing Division, 2021

For the tertiary sector, there is a decrease in the number of establishments from 2018 to 2021, possibly linked to the effects of the COVID-19 pandemic. Despite the said decrease in the number of establishments, number of employees increased drastically from 2018 to 2021. Among the economic activities identified by the Business Permit and Licensing Division, “Wholesale and Retail Trade” has the greatest number of establishments and employees in the city – making up 57% of the total establishments and 51% of the total employees.

- **Tourism**

Having deep historical roots and playing an important role in the creation of Philippine History, the City of General Trias has various historical and religious sites that were developed during the Spanish period. In the present, the city now has different tourist facilities (i.e. leisure sites) to meet the demand of tourists coming to the city.

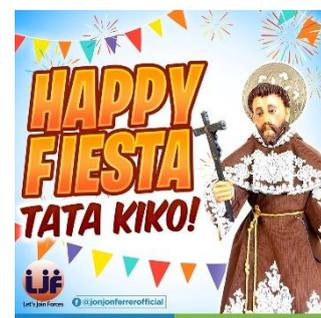

Name of Tourist Spots	Location (Barangay)	Land Area (sq.m)	Attraction of the Site	Accessibility of the Area	Status

	- Secure equipment and funds to aid in quick response and efficient operations	<ul style="list-style-type: none"> - Acquire patrol cars and motorcycles - Formulate Ordinance creating a “ONE Gentri, ONE (1) Radio frequency” for PNP, Traffic, Fire and Barangays for Crime/Incident responses and providing funds for materialization of the same

Sub-Sector: Education

Sectoral Goals:

- Literate, educated, and virtuous citizens

Objectives:

- To develop an inclusive and expansive curriculum for all levels of learning and all kinds of students
- To introduce life skills learning and values formation at an early age
- To improve quality of education through modernizing learning facilities and providing continuous professional development for faculty members

Strategies:

- To strengthen inclusive education by allotting and providing additional classrooms and facilities at various barangays
- To support the implementation of Alternative Learning System (ALS) and Open High School Program
- To strengthen procurement and financial systems for investments on education-related matters

PROGRAM	PROGRAM COMPONENTS	ACTIONS/INTERVENTIONS
Program Heads up to Excellence and Access thru Responsive TEA (Transparent, Ethical, Accountable) (HEARTS)	- School Building Program	- Provision and construction/ repair of additional classroom building for schools, establishment, merging, and or conversions of schools - Conversion of schools to integrated high schools
	- Balik Eskwela Program	- Procurement of learning resource requirements such as Textbooks (Science and Mathematics), Skillbooks (English), manipulatives for SPED learners, and supplies for printing materials (RISO ink and bond papers) - Inclusive Education (SPED), Alternative Learning Systems, and MADRASHA - Review implementation of policies on "Bawat bata bumabasa" and "no child is left behind" - Ordinance Establishing Measures to Strengthen Engagement of Private Sectors in Supporting DepEd Programs, Projects, and Activities

PROGRAM	PROGRAM COMPONENTS	ACTIONS/INTERVENTIONS
		<ul style="list-style-type: none"> - Allocation of fund for training and development of teachers
	<ul style="list-style-type: none"> - Technical -Vocational School Program 	<ul style="list-style-type: none"> - Establishment of a technical-vocational/ trade school through Sangguniang Panlungsod Resolution, appropriating funds and implementing guidelines - Ordinance Mandating Industries to Accommodate Learners for Immersion

Sub-Sector: Civil Registry

Sectoral Goals:

- A more socially participative citizenry

Objectives:

- To provide adequate basic social services

Strategies:

- To profile and do data-gathering activities suitable to the needs of clients/beneficiaries
- To provide additional mandatory basic social services and infrastructure and publicizing their opening and inauguration

PROGRAM	PROGRAM COMPONENTS	ACTIONS/INTERVENTIONS
Free Birth Registration	- Delayed Birth Registration	- Coordination with barangay officials, information dissemination, and forum with parents and teachers in public schools
	- Out of Town Registration	- Review of supporting documents submitted by the applicant prior to registration
	- Mobile Registration	- Establishment of digital infrastructure and database with the local register - Free Barangay Mobile Registration
Mass Wedding	- "Kasalang Bayan"	- Conduct free mass wedding at least twice a year

SECTOR: INSTITUTIONAL SECTOR

Sub-Sector: Institutional Capacity

Sectoral Goals:

- Strengthened organizational capacity and structure

Objectives:

- To develop high performing, competent, service-driven, and credible LGU officials and personnel
- To maintain adequate number of required employees with matching skills requirement
- To maintain effective and efficient bureaucracy

Strategies:

- To develop improved database for file management by the LGU
- To improve capacity of employees, both old and new
- To strengthen coordination and partnership with Private Sector (CSOs)

PROGRAM	PROGRAM COMPONENTS	ACTIONS/INTERVENTIONS
Updated HRIS Program 2022	- Coordination with Model City LGU	- Adapt the system provider of a model LGU through MOA
	- Seek systems provider	
	- Implementation of HRIS Program	
	- Allocate funds to be approved by the LCE to acquire the system	
Provide Education Program for LGU personnel	- Coordination with schools	- MOA with Schools for the continuing education program of employees
	- Coordination with Civil Service Commission for modification programs	- SP Resolution granting subsidy for qualified employees
	- Approval from the LCE to implement such programs	
	- To allocate funds to subsidize the continued education of employee	- Creation of database to help in identifying said employees
Creation of Database Program for tracking (Cloud Service / Digital Warehouse)	- Allocation of funds for Cloud Service and Digital Warehouse	- Issuance of EO for mandating gathering of information (document tracking with personal info for office use only) -Technical Assistance c/o ICT
	- Issuance of Memorandum mandating all departments to gather vital information for digital tracking of documents	- Creation of database in each dept. (including digital warehouse and cloud service)

PROGRAM	PROGRAM COMPONENTS	ACTIONS/INTERVENTIONS
	<ul style="list-style-type: none"> - Coordinate with ICT for the possibility of creating a program for this; if not, then study the option of contracting an IT company. - Sourcing of Cloud provider for the storage of data collected - Seek authority from SP to enter into a MOA with the cloud provider 	<ul style="list-style-type: none"> - Signing of MOA with partners for the usage of database program and cloud provider (if with external IT Company)
	<ul style="list-style-type: none"> - Training of end users from various LGU departments 	<ul style="list-style-type: none"> - Training of office personnel in the usage of database program
Taking custody of properties by the City	<ul style="list-style-type: none"> - Real properties (e.g. certificate, titles, documentary proof) to be gathered by the GSO 	<ul style="list-style-type: none"> - Establishment of centralized modern warehouse to file and store documents handled by the GSO
	<ul style="list-style-type: none"> - Aid in transfer of certificate of registration for Personal properties (motor vehicles) to the City Government 	<ul style="list-style-type: none"> - Filling up of vacant positions in the GSO to maintain and take charge of technical support services (e.g. motorpool, warehouse, etc.) - Training of GSO personnel for technical support services and maintenance
NGO/CSO/PO Selection Program	<ul style="list-style-type: none"> - Identification of NGO/CSO/PO in the locality 	<ul style="list-style-type: none"> - Establish standards (or criteria) for the selection of accredited NGO/CSO/PO that are qualified to implement government PPAs

Creation of mandatory positions for the LGU's CBMS as required by PSA and RA 11315	<ul style="list-style-type: none"> - Creation of City Statistician Office (City Statistician SG-18) 	<ul style="list-style-type: none"> - SP Resolution creating various positions for the LGU through RA 11315 (CBMS), creating mandatory position - City Statistician SG-18
Filling up of vacant positions for the Office of the City Planning and Development Coordinator	<ul style="list-style-type: none"> - Hiring of personnel: Project Devt Officer II, Computer Operator II, Admin Aide IV 	<ul style="list-style-type: none"> - Fill-up vacancies for the Planning Office: Project Devt Officer II, Computer Operator II, Admin Aide IV

Sectoral Goals:

- Effective and Efficient Public Information Service

Objectives:

- To effectively and efficiently share information to the general public

Strategies:

- To update information database, including contact details, for easier sharing of information
- To properly manage centralized feedback mechanism

PROGRAM	PROGRAM COMPONENTS	ACTIONS / INTERVENTIONS
<p>Functionable Public Information Office</p>	<ul style="list-style-type: none"> - Effective and Efficient public information system 	<ul style="list-style-type: none"> - Memorandum Order stating and assigning the City Information Office of its mandatory function based on Local Government Code and Charter of the City of General Trias - Creation of permanent positions under the City Information Office for business continuity - Update all contact details of all offices and provide telephone lines to all offices and barangays - Provide computers, printers, cameras, and other supplies
	<ul style="list-style-type: none"> - Centralized Feedback Mechanism 	<ul style="list-style-type: none"> - Issue an order on the centralization of feedback system and assign personnel in charge of the mechanism

Sub-Sector: Financial Capacity

Sectoral Goals:

- Sustained Fiscal Capacity

Objectives:

- To improve local tax collection efficiency
- To improve delivery of public service

Strategies:

- To revise Local Tax Code and other related plans / codes to aid in local tax collection
- To monitor monetary flow by the LGU

PROGRAM	PROGRAM COMPONENTS	ACTIONS/INTERVENTIONS
Revision of Local Revenue Code	- Review current City Tax Ordinance/Local Tax Code	- Revision of Local Tax Code and Updating of Fees and Charges
	- Presentation of the proposed New Tax Code	
	- Conduct public hearing to all stakeholders	- IEC on revised Local Tax Code to the general public
	- Disseminate information to the general public	
Completion of Cadastral Survey	- Creation of Committee	- Passing of Executive Order to create Committee focusing on completion of Cadastral Survey and their functions
	- To conduct committee meetings to discuss boundary disputes of 4 barangays and to finalize the borders of each barangay to be presented to LCE and SP	- Passing of SP Resolution approving the boundaries identified by the survey
Conduct Physical Inventory per COA circular 006-2020 and comply with Government Accounting Manual Accounting System for PPE	- Creation of Special Inventory Committee and Team	- Passing of Executive Order to create Special Inventory Committee and Team and their functions
	- Preparation of Inventory Plan (PIP)	- Conduct Physical Inventory per COA Circular 006-2020
	- Conduct physical inventory	
	- Reconciliation of physical inventory against book of accounts record	- Compliance with Government Accounting Manual Accounting System
	- Submission of unreconciled PPE to COA	
	- Adjustment to the book of accounts	

PROGRAM	PROGRAM COMPONENTS	ACTIONS/INTERVENTIONS
Reactivation of Local Performance Monitoring System	- Remodification of committee to handle performance monitoring system	- Passing of Executive Order for the modification of the Local Performance Monitoring System
	- Inclusion of CSOs in the said committee	
	- Review of AIP Projects	- Adopt OPCR/IPCR as a tool for monitoring the implementation of AIP projects
	- Review of OPCR/IPCR to aid in monitoring of projects	

SECTOR: INFRASTRUCTURE SECTOR

Sub-Sector: Traffic Management

Sectoral Goals:

- Efficient road network system

Objectives:

- To fully enhance the city's transport system
- To efficiently manage traffic conditions
- To increase road resiliency of road system

Strategies:

- To prepare Transport Master Plan
- To construct terminals and other vehicle-related infrastructure
- To construct and improve road network in the city

PROGRAM	PROGRAM COMPONENTS	ACTIONS/INTERVENTIONS
Transportation and Traffic Development Program	- Preparation of Comprehensive Transport Master Plan for the City of General Trias	- Traffic Re-routing schemes
		- Review and revise local traffic and parking ordinances - Creation of ordinance for carpooling - Construction of Transport Terminal - Construction of Impounding Area - Encourage of the public transport
Road Network Development Program	- Construction of Road and rehabilitation of existing roads, including bike lanes, sidewalks, and streetlights	- Identification of threats to efficiency of each roadway (i.e. roadside, obstructions, road damages, etc.) - Roadside clearing operations - Creation of quick response maintenance division - Construction of road with drainage along Filinvest road at Pasong Kawayan II

Sub-Sector: Modern infrastructure and facilities

Sectoral Goals:

- A well-serviced citizenry

Objectives:

- To increase resiliency of drainage system

Strategies:

- To construct and improve flood control mitigating measures

PROGRAM	PROGRAM COMPONENTS	ACTIONS/INTERVENTIONS
Flood Control Program	- Construction of Flood Control Infrastructure Project: <ul style="list-style-type: none"> > Drainage lines > Revetment Structures > Desilting of existing drainages, waterways and irrigation canals > Rain water collection system (existing government facilities) 	<ul style="list-style-type: none"> - Review of existing drainage systems and flood control mitigating measures; its capacity and effectivity - Design of appropriate drainage system and flood control structures - Construction/Improvement of drainage systems, flood control structures, and sidewalks along Brgy. Dulongbayan and San Gabriel, and Stateland

Sectoral Goals:

- Modern basic support facilities

Objectives:

- To increase accessibility of government service for the people

Strategies:

- To construct and develop City Government Buildings and Facilities

PROGRAM	PROGRAM COMPONENTS	ACTIONS/INTERVENTIONS
<p style="text-align: center;">City Facility Development Program</p>	<ul style="list-style-type: none"> - Identification of facilities that are lacking in the city 	<ul style="list-style-type: none"> - Construction of City Government Buildings <ul style="list-style-type: none"> > Super Health centers (2) > City Central Storage Warehouse > Wake/viewing building > Columbariums and apartment type niches > Recreational park and pocket parks. > Transport terminal > City Library > School Buildings > Agri Warehouse > Motorpool (GSO) > Rehabilitation and improvement of existing city government facilities > Animal impounding area > Impounding area (TMO) > MRF > Day care centers > Other health facilities
	<ul style="list-style-type: none"> - Prioritization programs for facilities to be constructed 	
	<ul style="list-style-type: none"> - Acquisition of new lots for construction of these facilities 	
	<ul style="list-style-type: none"> - Design and Construction of Additional Facilities 	
	<ul style="list-style-type: none"> - Regulation of the standards of Government owned facilities 	
	<ul style="list-style-type: none"> - Rehabilitation and renovation of old and existing buildings 	
	<ul style="list-style-type: none"> - Establishment of school development plan 	

Sub-Sector: Technological advancement

Sectoral Goals:

- Modern basic support facilities

Objectives:

- To spearhead development in technological advancement

Strategies:

- To create a modern facility in-line with the fast growing technologies

PROGRAM	PROGRAM COMPONENTS	ACTIONS/INTERVENTIONS
City Facility Development Program	- Creation of ICT Learning Facility Center	- Appropriation of funds for the acquisition of lot
		- Construction of ICT Learning Facility

Sectoral Goals:

- A well-serviced citizenry

Objectives:

- To enhance connectivity of citizens through internet connectivity

Strategies:

- To develop efficient telecommunication/internet services for the city

PROGRAM	PROGRAM COMPONENTS	ACTIONS/INTERVENTIONS
Internet Public-Private Agreement Program	- Public-private agreement to resolve zero to no internet connectivity within the City of General Trias	- Approval of additional cell sites
		- Upgrading of existing telecommunication facilities
		- Increase the tower of mobile network providers
		- Conduct consultation to the mobile and internet service providers on reaching those community with poor internet connectivity.
		- Reach an agreement between the private sectors on participating and servicing the whole of City of General Trias

Sectoral Goals:

- Robust industry and business environment

Objectives:

- To develop General Trias into a Smart City

Strategies:

- To maximize use of technology in improving industry

PROGRAM	PROGRAM COMPONENTS	ACTIONS/INTERVENTIONS
Development of ICT Plans and Programs	- Preparation of the Comprehensive ICT Masterplan of the City Government of General Trias	- Creation of Executive Order for the creation of the ICT Council
	(Coordinate with the Office of the City Mayor; Office of the City Administrator; Business Permit and Licensing Office; Local Economic Investment and Promotion Office)	- Appropriation of funds to sustain and establish online web system infrastructure
		- Appropriation of funds to outsource a program that will keep track of client's activities, feedback, complaints/grievances and appointment system

SECTOR: ECONOMIC SECTOR

Sub-Sector: Employment and labor force

Sectoral Goals:

- Sustained skilled labor force supply in General Trias

Objectives:

- To enhance the skills of the labor force of different sectors
- To provide employment opportunities to all Gentriseños, regardless of age and status

Strategies:

- To establish Barangay extensions of Employment Service Desk Office
- To conduct regular job fairs, inclusive of all sectors
- To create labor market information accessible to everyone
- To protect employees against illegal recruitment

PROGRAM	PROGRAM COMPONENTS	ACTIONS / INTERVENTIONS
Employment Facilitation Program	- Barangay Employment Service Desk Office (BESDO)	<ul style="list-style-type: none"> - Establishment of Barangay Employment Service Desk Office (BESDO) through ordinance and hiring of BESDO coordinator to the barangay level - Coordination with Barangay Captains, HOA and other sectors

	<ul style="list-style-type: none"> - Production Support Program 	<ul style="list-style-type: none"> - Provision of various agricultural facilities such

PROGRAM	PROGRAM COMPONENTS	ACTIONS / INTERVENTIONS
		as cold storage, slaughterhouse, post-harvest facilities - Ordinance creating the Agricultural Biosystem Engineering Division with personnel under the Office of the City Agriculturist

SECTOR: ENVIRONMENTAL SECTOR

Sub-Sector: Environmental and Natural Resources

Sectoral Goals:

- Improved solid waste management and services

Objectives:

- To efficiently and effectively implement solid waste management actions all over the city

Strategies:

- To fully implement Solid Waste Management Act (RA 9003)

PROGRAM	PROGRAM COMPONENTS	ACTIONS/INTERVENTIONS
Solid waste management program	- Revision of Solid Waste Management Plans	- Update Solid Waste Analysis and Characterization Study (WACS)
	- Expansion of MRF Coverage	- Updating then implement city Solid Waste Management Plan (SWMP)
	- Hiring of additional manpower and purchase of additional equipment	- Increase manpower for solid waste management /Hiring of additional technical staff - Institutionalize weekly clean-up drive - Amend MOA to strengthen the waste collection of 3rd party contractors/PPP
	- Conduct of IEC campaigns	- Conduct massive IEC campaign on solid waste segregation
	- Strengthening of existing laws	- Implement “No segregation, No collection” policy - Issue notice of violation for non-compliance to solid waste management policies

Sectoral Goals:

- Effective and efficient wastewater management

Objectives:

- To ensure treatment of all wastewater
- To prevent pollution in water bodies and spread of health and sanitation issues

Strategies:

- To fully implement wastewater management laws
- To strengthen of capacity of CENRO personnel for implementation and monitoring of wastewater management

PROGRAM	PROGRAM COMPONENTS	ACTIONS/INTERVENTIONS
Water pollution prevention and control program	- Water quality monitoring system	- Increase number of manpower to facilitate water monitoring through creation of additional positions (Environmental Management Specialist I (SG 11), Laboratory Technician I (SG 6))
	- Compliance to regulatory requirements	- Monitor compliance of commercial and industrial establishment on STP requirement - Issue notice of violations to establishments that dump wastewater on water bodies such as rivers, creeks, canals, esteros, etc - Institutionalize “No Dumping on Water Body” policy - Improve requirements for Building Permit and Permit to Operate applications (with complete as-built plans of septage/sewage treatment facility)
	- Rehabilitation of water bodies	- Ensure LGU Compliance Action Plan for IYRR and Cañas - Maalimango Rivers WQMA - Comply in the Manila Bay Clean-up, Rehabilitation, and Preservation Program - Conduct IEC campaign on the protection of water bodies and on water conservation initiatives
	- Establishment of Septage Treatment Facility	- Construct septage treatment facility - Require households to have their own septic tanks
	- Improved health and sanitation practices in household level	- Implement Septage Management Ordinance - Conduct massive IEC campaign on Sanitation Code and City Water Supply and Sanitation Master Plan

Sub-Sector: Disaster and Risk Reduction

Sectoral Goals:

- Reduced and mitigated impacts of disasters

Objectives:

- To capacitate frontline and households against disasters
- To strengthen City's effort in implementation of disaster risk reduction management

Strategies:

- To implement and adopt the updated CDRRM Plan and Contingency Plans for all barangays in the city
- To strengthen capacity of CDRRMO personnel and equipment

PROGRAM	PROGRAM COMPONENTS	ACTIONS/INTERVENTIONS
Disaster Risk Reduction and Management Program	- Capacity building for frontline and support function	- implement updated Disaster Risk Reduction Management Plan - Creation of positions for 24/7 Operation Center and CCTV Monitoring (7 staff**) - Appropriation of funds for insurance for emergency responders - Provide continuous DRRM training to response officers, especially to 24/7 operators
	- Fully functional emergency operation centers and other DRRM facilities and equipment	- Establish Emergency Operation Center and Emergency Hotline 911 - Procure DRRM facilities and equipment
	- Inventory of DRRM facilities, structure, equipment	- Upgrading of CCTV cameras and system (from radio frequency, to fiber optics)
		- Implement acquisition of land for new and improved evacuation center complying to health standards
	- Relationship building for partners	- Partner with agencies/ organizations that can support DRRM plans, actions and initiatives of the City through a MOA - Gather additional volunteers for DRRM
